AMERICAN BANK SYSTEMS
COPILOT® · INTEGRATED LOAN & DEPOSIT PLATFORM

SIGNiX

FOR INSTITUTIONS ADOPTING OR EXPANDING ABS COPILOT

Keep signing inside your CoPilot workflow, with partners who stay with you after the sale.

You get bank-grade trust and clear document control when American Bank Systems and SIGNiX work as an extension of your team.

UNINTERRUPTED WORKFLOW

1. Prepare and package documents in your familiar CoPilot process
2. Route agreements for signature without breaking the chain of custody
3. Sign with solutions designed for regulated financial services
4. Retain records your teams and auditors can stand behind

Partnership first, not vendor first

- Your ABS team knows your institution. SIGNiX aligns with that relationship for implementation and support.
- Integrated thinking: not a bolt-on tool your staff has to force into daily work.

Trust, security and ownership

- Digital signatures built for environments where accountability matters.
- Emphasis on document integrity and control appropriate for loan and deposit operations.

EXTEND COPILOT WITH SIGNIX CAPABILITIES

ID Verify™ | Digital Billboard | eNotary DoX® | MyDoX®

Your ABS representative can map which options fit your workflows, channels, and compliance review, so you adopt what you need when you need it.

Aspen Arias — Account Executive
